In the message from the CEO, we state our mission to continuously improving corporate value together with society and the global environment conservation by providing safe, environmentally friendly and high-quality service, while fulfilling its social mission as a shipping company to continue providing an indispensable piece of social infrastructure that supports people’s lives.

In the special features, as examples of providing new value, we present roundtable discussions with employees involved in construction of our first LNG fueled car carrier, efforts toward carbon neutrality and exploration of growth markets, and improvement of safety, environmental performance and quality with digital technologies.

We also explain sustainability management, efforts for safety in navigation and environmental protection, human resource management and corporate governance as a basis of sustainable growth.
