Kawasaki Kisen Kaisha, Ltd.

Publication of ESG DATA BOOK 2021

Kawasaki Kisen Kaisha, Ltd. ("K" LINE) is pleased to announce publication of **ESG DATA BOOK 2021**.

ESG DATA BOOK 2021 has been issued to systematically summarize policies, systems, specific initiatives and relevant data related to "K" LINE Group's environmental (E), social (S), and governance (G) aspects. It has been published from this fiscal year as a tool for dispatch of information to, and for communication with, stakeholders who are interested in the Group's ESG initiatives.

"K" LINE publishes "**K** LINE REPORT", an integrated report aimed at helping all stakeholders understand the Group's corporate activities and medium-term vision. It also publishes **FACTBOOK**, a compilation of materials mainly for shareholders and other investors, designed to deepen their understanding of the shipping industry and our business. By publishing **ESG DATA BOOK** in addition to these publications, we are working to further enhance disclosures of the Group's financial and non-financial information. We hope that these publications will help better and deeper understandings on "K" LINE Group among a broad range of our stakeholders.

ESG DATA BOOK 2021 can be found on our website.
