Kawasaki Kisen Kaisha, Ltd.

Voluntary transport Bush Fire charity vehicle being loaded to PCC MV Tianjin Highway

In March "K" LINE Australia in partnership with "K" LINE Thailand voluntary transported 1 unit of Bush Fire charity vehicle free of charge onboard MV Tianjin Highway, PCC(Pure Car Carrier), from Port Kembla to Fremantle to support charity organization, Anglicare Australia's effort to support of people in Western Australia who have suffered from recent Summer bush fires events.

"K" LINE Australia was able to work side by side with McPhee Freight Pty Ltd, who also donated free of charge and arranged all landside transport delivery & collection charges from terminals in Port Kembla and Fremantle. Qube Stevedores also contributed to the effort providing stevedoring of the unit free of charge.

We would like to express our deepest sympathy to those in the disaster areas and sincerely wish for the earliest recovery from this most unfortunate event.
