Kawasaki Kisen Kaisha, Ltd.

Delivery of ‘Corona’ Series Coal Carrier “CORONA XANADU”

Kawasaki Kisen Kaisha, Ltd., Tokyo, (hereafter called “K” Line) is proud to announce the delivery of “CORONA XANADU,” an 88,000 DWT-type special coal carrier at Shin Kasado Dockyard Co.,Ltd. of Imabari Shipbuilding Group Japan on May 23, 2018.

CORONA XANADU is same type as “K” Line’s specialized fleet for transport of thermal coal known as the “Corona-series”. The Corona-series consists of epoch-making coal carriers equipped with wide beam and shallow draft, which are the most suitable type to enter ports of domestic Thermal Power Stations to discharge cargo.

CORONA XANADU is equipped with latest energy saving and ecological technology such as WAD (Weather Adapted Duct) which promotes her propeller efficiency and ballast water management system which saves marine ecosystems.

With this new latest deployment, the Corona-series now consists of 19 carriers. “K” Line takes pride that its Corona-series has been so favorably evaluated for always ensuring customers steady and reliable thermal coal transport service with maximum safety.

Vessel’s Specifications

LOA	229.98 M	Deadweight Tons	88,869 MT
Beam	38.00 M	Gross Tons	49,733 T
Depth	19.90 M	Net Tons	28,528 T
Full Draft	13.904 M	Hold/Hatch	5/5
