"K" LINE Group Opened Booth at Wind Expo 2022 Spring in Tokyo

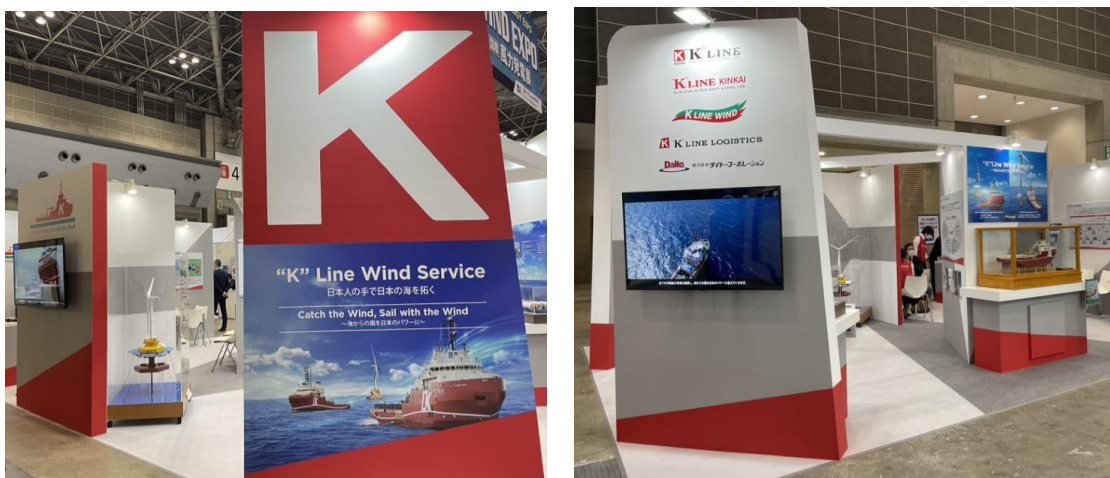

"K" LINE group, Kawasaki Kisen Kaisha, Ltd., Kawasaki Kinkai Kisen Kaisha, Ltd., "K" Line Wind Service, Ltd., "K" Line Logistics, Ltd. and Daito Corporation, opened booth at WIND EXPO 2022 Spring in Tokyo following to the one held in autumn 2021. Even though the expo was held with strict regulation for COVID-19 protection, more than 40,000 people visited the event and 1,000 people to "K" LINE group booth.

At the booth, we have represented panels and explained about "K" LINE Group's strategy in Offshore Wind business, Green Innovation Fund awarded project by New Energy and Industrial Technology Development Organization (NEDO) for "Mass-production and Cost Reduction of Floating Offshore Wind Installation" and visualized the vessels' working situation with ship models and movies. We also had a PR seminar about "K" Line Wind Service's targets explaining about above mentioned NEDO projects, Service Operation Vessel (SOV) development with hydrogen engines and Crew Transfer Vessel (CTV) development suitable for Japanese ocean.

"K" LINE group shall open a booth in coming and future expo. If any chance, please visit us.
